My radio is tuned to an alien station  
My fingers are tapping to an alien tune  
I wonder what kicks you can get on this moon  
Stay ready to cut and run

Stay ready to cut and run  
Stay ready to fly away  
Stay ready to cut and run  
Stay ready stick to attention

I wonder what kind of birds are in the sky  
Stay ready to fly away  
Wierd life forms drinkin' cups of tea  
There's some strange stuff they're gonna show me

Stay ready to cut and run  
Stay ready stick to attention  
Stay  
Stay ready to cut and run  
Stay ready to fly away

Your planet on my screen (Ooooo...)  
Whole new place  
I never seen it before (Ooooo...)  
Strange city down below  
1,000 feet to zero (Ooooo...)  
Stick to attention

Stay ready to cut and run  
Stay ready to fly away  
Stay ready to cut and run  
Stay ready to fly away  
Go!

I shoulda been a cowboy  
Uhhh Ohhh
