

Stirling Says "Cassingle"

Visit "[Cassingle](#)" on MotoLyrics.com

Can you feel the tingle?

Magnetic waves hit the tape head and it plays the
cassingle.

It's hard to decide if it's better on side a or if it's
swingin' on the b side.

So take a long ride, a long ride for today and tonight,

Electric runs up the wires, we'll set your headphones on
fire.

So take a long ride, my walkman plays with a pair of
double As and it's alright.

Light from the diode shows the face of a man who
knows he's on the right road side.

So take a long ride, a long ride for today and tonight,

Electric runs up the wires, we'll set your headphones on
fire.
