I told my baby nice-please don't flirt around-
& don't give eyes to other guys it makes my poor heart
pound
& as I told her nice please don't make me dread
She winked her eye at another guy & when they left
here's what she said
Goodbye Rubberhead so long boob go and fill your
innertube
I got got a brand new sugarcube,
So good bye rubberhead so long boob
I phoned my baby twice to say she hurt me bad
& asked her when she's free again to make my poor
heart glad
Oh yes I phoned her twice and as with her I pled,
She left me alone on the buzzin bone
With the memory of what she said -
-well I was feelin kinda bad around that time
Well I took some good advice & I met me another girl
& just to walk with her one block it sets my heart awhirl
& when we met my ex well did her face get red
She must have burned at the way I turned my nose up
in the air and said:
Chorus: end
