"Hold It"

I know the way you lived before
Hold it
There is no reason to even the score
Hold it
You're diggin' your own grave
I see it in your face
No matter what you do
It's gonna finish you

I'll never cry for you
And it's a nasty life you choose

I'm gonna say no more... to your lies
Hold it
To live or die, you decide
Hold it
Don't bet with your last dime
I'll always be on your side
No matter what you do
There ain't a spell on you
