I'm standing on a hilltop
A hundred miles from home
I can see the light surrounds me
I want you to show me around

I'm standing here
I really don't think
You could know that I'm in Heaven
When you smile

I'm drifting through the city
I'm swinging from a tree
I can touch but you can't feel me
You hear me as you sleep

I'm standing here
I really don't think
You could know that I'm in Heaven
When you smile

And I'm everywhere
I really don't think
You could know that I'm in Heaven
When you smile

But I don't think you think like I do
No matter how how hard I try
I always thought I'd have the answer
Let me tell you what I've got

I'm looking through your window
I might just have the key
Over me bright room for nightmare
You hear me as you speak

I'm standing here
I really don't think
You could know that I'm in Heaven
When you smile

I'm standing here
I really don't think

You could know that I'm in Heaven
When you smile

But I'm everywhere
I really don't think
You could know that I'm in Heaven
When you smile

But I don't think you think like I do
No matter how how hard I try
I always thought I had the answer
Let me tell you what I've got
Oh, let it rot, I'd make them stop

I could park a juggernaut in your mouth
And I can feel a hurricane when you shout
I should be safe forever in your arms
I should be safe forever in your arms

I could park a chubby boat in your mouth
And I can feel a hurricane when you shout
I should be safe forever in your arms
I should be safe forever in your arms
