(I am a) dominant gene- Live as I die
Never say forever cause forever's a lie
I can see right through you so I can't ignore you
The story changes but the ending will bore you
I tried to tell you but you simply obeyed
You didn't listen so they threw you away
Now all you do is talk - I don't wanna hear your bullshit
Is this what you want?!

This is where it BEGINS - this is where it ENDS

They called us a Dead Generation, they told us that we
wouldn't survive
They left us alone in the maelstrom as you can see
we're all plenty alive
We know where you are and were coming
Lets see you say that shit to our face
30/30-150 Remembers 30/30-150 Hates

In-My-Own-Peculiar-Way-I-Feel-Mercurial
Before I get ahead of myself again
I know the where, but I still don't know the when
You wanna live in a one sided world?
Be prepared for a whole world of hurt
Now it's the Grand facade - I dont want to be an angel...
I just want to be God!

They called us a Dead Generation, they told us that we
wouldn't survive
They left us alone in the maelstrom as you can see
we're all plenty alive
We know where you are and were coming
Lets see you say that shit to our face
30/30-150 Remembers 30/30-150 Hates

(I am a) Fuckin' machine - fueled by the past
A memory's a memory until it's a fact
I can bury the hatchet and let some shit go
But I got too many grudges to hold
I saw a lot of people die in the end
I never wanna walk that road again

Now I will never give up - I don't wanna have it all...
I just wanna have enough

This is where it BEGINS - this is where it ENDS

They called us a Dead Generation, they told us that we
wouldn't survive

They left us alone in the maelstrom as you can see
we're all plenty alive

We know where you are and were coming

Lets see you say that shit to our face
