C'mon

You've got to feel the ultimate real
To make it go away
Is everyone afraid?
This time it's just
Decimates
I'm too late
Finds its way
Don't turn around because you're dead when you look
away

I can hear you
Say something in the dark to maintain
I can hear you
Don't you look cause you're never

Wrong way
You're running into nothing
The problem isn't hiding
Your paranoia, lying
It manifests
Discontent deviates
Manic state
You're too late
Don't be around because you're dead if you look this
way

I can hear you
Say something in the dark to maintain
I can hear you
Don't you look cause you're never

This is ending
Your beginning

What have I become?
Look at what you've done
Something isn't right
You're supposed to die
We emulate

Celebrate
Can't dictate
Human waste, not the case
Don't understand why you're fighting me
Killing me

I can hear you
Say something in the dark to maintain
I can hear you
Don't you look cause you're never

This is ending
Your beginning
