Everyday I get closer and closer to releasing this on  
you

Roll it in, I can snap it in half and let the other  
make this happen to you

All I see is someone afraid of my eyes

It's inside me

You're all abortions to me

Fucking lying to me as if I don't need an apology

I don't give a fuck who you think you are

Go away

Anyway, you make me sick and it doesn't help your  
case

It's so serious I can't stop laughing

And I cannot wash my mouth of this taste

You try to destroy

Afraid to face the facts

I don't know how much longer I can live a lie

I want the whole world to burn every single thing

For once it's not on my head

Killing everyone

Killing everything

Killing everyone

Killing everything

My arms are dead and my veins are too

And I'm starting to believe

My head is shaking and I feel my smile

Like I've written this on a hardened ?

No-ones crying anymore

I am closing the door

I am nothing but a ?

My mind is a weapon

My finger's a gun

It's time that I give you my pain

Killing everyone

Killing everything

Killing everyone

Killing everything
