I am living in the shadows  
I am just a word to you, but I am very real and cold

Cold to all of this  
Cold to how you feel  
Cold to all your loose reason

I am everything  
I am anything  
I am automatic  
I am yesterday  
I am everyday  
I am gonna be...

Yeah

I am all there is to know  
I am all that you've forgotten  
I am enigmatic now  
You never even knew my name  
I am dressed in tragedy  
I am by design immortal  
I am just the last one left but I am always here and old

Old and very strong  
Old as all you feel  
Old as all the world around you

Yeah

I am everything  
I am anything  
I am automatic  
I am yesterday  
I am everyday  
I am gonna be...

Reborn!  
This is the start of something x4

I am just a secret now

I am just a vague illusion  
Im a lie you tell yourself  
That you never truly did believe  
Im a whisper in the dark  
Im a victim and the killer  
I am almost ready now  
But you insist I dont exist

That i dont exist  
That i dont exist  
That I dont EX..IST!

I am everything  
I am anything  
I am automatic  
I am yesterday  
I am everyday  
I am gonna be...

Reborn!  
This is the start of something x4

Mother Fucker x3
