I am walking through your streets  
I am looking in your windows  
I am elemental now  
You'll never even know I'm there

I am watching over you  
I am living in the shadows  
I am just a word to you  
But I am very real and cold

Cold to all of this  
Cold to how you feel  
Cold to all your loose reason

I am everything  
I am anything  
I am automatic

I am yesterday  
I am everyday  
I am gonna be

I am all there is to know  
I am all that you've forgotten  
I am enigmatic now  
You never even knew my name

I am dressed in tragedy  
I am by design immortal  
I am just the last one left  
But I am always here and old

Old and very strong  
Old as all you feel  
Old as all the world around you

I am everything  
I am anything  
I am automatic

I am yesterday  
I am everyday

I am gonna be

Reborn  
(This is the start of something)  
Reborn  
(This is the start of something)

Reborn  
(This is the start of something)  
Reborn  
(This is the start of something)

I am just a secret now  
I am just a vague illusion  
I'm a lie you tell yourself  
That you never truly did believe

I'm a whisper in the dark  
I'm a victim and the killer  
I am almost ready now  
But you insist I don't exist

That I don't exist  
That I don't exist  
That I don't exist

I am everything  
I am anything  
I am automatic

I am yesterday  
I am everyday  
I am gonna be

Reborn  
(This is the start of something)  
Reborn  
(This is the start of something)

Reborn  
(This is the start of something)  
Reborn  
(This is the start of something)

Motherfucker  
Motherfucker  
Motherfucker
