Falling farther with a flaming hand
I knew the question but I lost the answers
I'Ã‚Â€Ã‚Â™ll hold the wall for all
I'Ã‚Â€Ã‚Â™ll hold it all for all
As long as no one asks no questions

I got the message
And the message stood

One, two, three
I got another, got another
One, two, three
I got another, got another
I got another hit that held me the last time
Don't ya know what I mean boys?

One, two, three
I got another, got another

Falling fast but doing all I can
I know the questions but I lost the answers
I got the message and the message stood

One, two, three
I got another, got another
One, two, three
I got another, got another
(I got another)
I got another hit that held me the last time
Don't ya know what I mean boys?

One, two, three
I got another, got another

Lease the one who makes it
Profit from the riddle
Kill the one that breaks it
Always in the middle
Keep the dream alive
With sleeping pills you shouldn't fiddle

Lease the one that makes it

Profit from the riddle

I got the message but I lost the race
I got the message but I lost the race

One, two, three
I got another, got another
(I got another)
One, two, three
I got another, got another
(I got another)
I got another hit that held me the last time
Don't ya know what I mean boys?

One, two, three
I got another, got another
