Assemble savage machines  
With erstwhile morbidity  
Allow thee certain substance that I adore  
Kiss my blood compassionately  
So alone within leviathan's flood  
Exotic world that lies within  
Transcendence reflected in anti-life  
Orgasm of sin's mutilated promise  
Loathing life's charming fury  
Infernal secrets riddled with glee  
Sing to them, elixir obtained forever  
Handled with rising madness  
Unspeakable misery bleeds  
The fires of earth 'till it's rebirth  
Granted silence through the dark  
But cursed from the entrance above  
The stars masturbate jealously  
With wings of blissful gifts  
Where sleeping shadows wake  
And pseudo midnight lies  
Covered in lunacy, the sower of destinies

Prostitute the carvings, the souls  
Painful cuts through the mirror  
Calling the sought after highs  
I crucifier of planets, iris of pain  
Dead star of stone, in hooves of fire  
Their undying waltz  
Please divest my wings of hate  
Black laced eucharist, blue agaves  
Wall of humankind's latent image  
Festival of death for all to see  
Weavers serenade speaking in tongues  
Tracherous intimacy within stone wings.
