We're on a one way street to nowhere
And the end is a coming fast
You've been playing every night of the week
And you're making me a part of your past
Just let me come down easy
When I come down
All I'm asking is let me down easy
When you bring me down, yeah
Well I'm so afraid to tell you
All the things running through my mind
Any minute you could walk out that door
And surely that would blow my mind
Let me come down easy
Oh when I come down
All I'm asking is let me down easy
When you bring me down, yeah
You know, you've been cheating, I've been weeping
Under this heavy load
I said you've been lying, I've been crying
And we're finally at the end of our road
Well you've got me where you want me

And I know that as well as you
But remember I still love you
And you got to hear me begging you
Let me come down easy
Oh when I come down
All I'm asking is let me down easy
When you bring me down, yeah
Let me come down easy
Let me come down easy
Let me come down easy
Honey, Honey
Let me come down easy
Honey, Honey
Let me come down easy
Honey, Honey
Let me come down easy
