"The End of Christianity"

Visit "[The End of Christianity](#)" on MotoLyrics.com

I saw a goddess at a pizza joint
She hit my weak spot at a crucial point
When it's a black girl you can not resist

It's the end of christianity
It's the end of christianity
It's the end of christianity
It's the end for you and me

No christianity

She walk in short shorts, man she fill them out
These bodies only come from way down south
I've got a feel in my pineal

It's the end of christianity
It's the end of christianity
It's the end of christianity
It's the end for you and me

No christianity

Now I'm a gator swimming in the sun
I go on instinct
Moral codes are done
I can't tell if I'm dead or having fun

No christianity

It's the end for you and me
