Atma  
Crush my enemies under golden paws  
Under golden claws when floating islands fall  
Act like the weapon that you were built to be  
Atma  
The golden beast  
With golden teeth  
Now your sword unsheathe vanish doom to defeat  
Or fucking die just like everyone before

Espers  
Hold me (alot)

Atma  
The golden beast  
With golden teeth  
Now your sword unsheathe vanish doom to defeat  
Or fucking die just like everyone before

Something human  
Something pure  
Something so fucking determined  
Its impossible to ignore

Cut and slice your way through the night to the triad of  
life X3

Cut and slice your fucking way through the night to the  
fucking triad of life
