"A Vow"

As long as I'm around
Our love will make the sound of
La da da

And if I trip and fall
I know you'll hear me call out
La da da

I only want to make you happy
I only want to make you smile
I only want to make you happy
I only want to make you smile
La da da

Please, please promise me
Sing two part harmony
Don't, don't be afraid
It'll be just you and me so
La da da

I only want to make you happy
I only want to make you smile
I only want to make you happy
I only want to make you smile
La da da

This is my vow
This a vow
This is my vow
This is my solemn vow
