When there is no one left to see
You feel alone but you'll never be
You cry a bit and you wonder who
Dries your tears, well he's right next to you

You've fallen one too many times
To get up by yourself
You've fallen one too many times
I am here to help

Now you're walking forward
With your head held high
You're no longer lonely
And you smile towards the sky

When there is no one next to you
You feel the strength to stand up on the two
Of your feet
And you smile, amidst the pain
Amidst the pain

You've fallen one too many times
To get up by yourself
You've fallen one too many times
I am here to help

Now you're walking forward
With your head held high
You're no longer lonely
And you smile towards the sky

And you walk a mile
On your own
And you walk a mile
On your own

Ground is beneath you
And the sky is above you
World is above you
And what you need is deep inside of you

You've fallen one too many times
To get up by yourself
You've fallen one too many times
I am here to help
I am here to help
I am here to help

Now you're walking forward
With your head held high
You're no longer lonely
And you smile towards the sky

And you walk a mile
On your own
And you walk a mile
On your own
