

Stopping At A Green Light "Fell Apart"

Visit "[Fell Apart](#)" on MotoLyrics.com

Just another day
Another day spent thinking of you
I wish I could have done something to prove to you
Exactly what you mean to me

Chorus:

Some days I don't think I can make it through
Being with you is all my dreams come true
I tried so hard but it all just fell apart (Fell Apart)
So many things I wish that I had done
Than maybe this wouldn't be over
It would have just begun (Just Begun)

Sometimes I try

Try hard to make it through
Just to be the one that gets to be with you
Missing you is something I can't fake

Chorus:

Some days I don't think I can make it through
Being with you is all my dreams come true
I tried so hard but it all just fell apart (Fell Apart)
So many things I wish that I had done
Than maybe this wouldn't be over
It would have just begun (Just Begun)

Chorus:

Some days I don't think I can make it through
Being with you is all my dreams come true
I tried so hard but it all just fell apart (Fell Apart)
So many things I wish that I had done
Than maybe this wouldn't be over
It would have just begun (Just Begun)
