It hurts everytime I see you  
It hurts everytimes I think about you  
It hurts

[Chorus:]

Cuz you've got pretty eyes  
And long blonde hair  
That makes me wish I could be right there  
By your side, and to my surprise  
You're single

But you don't even notice me  
Oh god, why can't you see  
That I want you to be  
Right here with me

[Chorus:]

Cuz you've got pretty eyes  
And long blonde hair  
That makes me wish I could be right there  
By your side, and to my surprise  
You're single

But I'm to much of a dope  
To think that theres still some hope  
With the prettiest girl  
And shes not even on T.V.

[Chorus:]

Cuz you've got pretty eyes  
And long blonde hair  
That makes me wish I could be right there  
By your side, and to my surprise  
You're single x2
