Where will you run to, when you've lost the fight  
What can you count on, when you can't tell black from  
white  
And who can you turn to, who's gonna hold you in the  
middle of the night  
Tell me who's gonna be that one, who's gonna treat  
you right  
You just call me, baby just call me  
It doesn't matter where you are, I can fill the empty  
space in your heart  
I'll be there  
There's a light in my window, so you can find your way  
And you've got my number, if there's something you  
have to say  
And if a cold wind is blowing, the door's always open  
any night or day  
So when you need what only love can give, don't ever  
hesitate  
You just call me, baby just call me  
It doesn't matter where you are, I can fill the empty  
space in your heart  
If you just call me, baby just call me  
'Cause if you ever need me, I'll be there  
Baby one day you'll find out, whoa you're gonna find  
out  
All that you wanted was right there in front of your eyes  
(Solo)  
Who's gonna be there, who's gonna hold you that close  
tonight  
Tell me who's gonna be there, who's gonna treat you  
right, yeah  
You just call me, baby just call me  
It doesn't matter where you are, I can fill the empty  
space in your heart  
If you just call me, baby just call me  
'Cause if you ever need me, oh call me, baby just call  
me  
'Cause if you ever need me, oh baby you ever need  
me... (to fade)
