Late in the night, darling your love I could use  
And I walk till it's light, thinking of things that we used  
to do  
I can still see your eyes as you stood in the doorway  
And told me you found someone new  
After it all, baby, I'm still loving you  
Time after time, I still keep thinking of you  
And as hard as I try, I can't stop the memory from  
cutting through  
I've tried to find love in the arms of another  
I've done everything I can do  
After it all, baby, I'm still loving you  
(Loving you) I'm in love with you  
(Still loving you) there's not much I can do  
It's hard to take, but I just can't deny that it's true  
(Loving you) So in love with you, (still loving you)  
there's not much I can do  
My heart keeps reminding me, baby, I'm still loving you  
Look at me now, I've got everything I should need  
And I've made it somehow, everyone knows it but me  
I can have anything, anything I can dream of  
You're one dream that just won't come true  
Look at me now, baby, I'm still loving you  
(Loving you) So in love with you, (still loving you)  
there's not much I can do  
It's hard to take, but I just can't deny that it's true, yeah  
yeah  
(Loving you) yeah yeah  
(Still loving you) girl you know you know you know it's  
true  
My heart keeps reminding me, baby, I'm still loving you  
You know you know you know it's true  
(Loving you, still loving you  
It's hard to take, I just can't deny that it's true  
Loving you, still loving you  
My heart keeps reminding me, baby, I'm still loving  
you)  
Still loving you, still loving you, still loving you
