"Where The Storm Meets The Ground"

Visit "[Where The Storm Meets The Ground](#)" on MotoLyrics.com

Home is where the heart is
Home is where the heart is
A picture from back when
Things were so much better
I wanna be with you

Love is where you are
Love is where you are
I need a companion
Someone whos forever
I wanna be with you

I wanna live where the storm meets the ground
I wanna live just to have you around
I wanna live to see that everything is true
If I could only have the nearness of you

Hope is where the light is
Hope is where the light is
I need to believe in that
Things are getting better
I wanna be with you

I wanna live where the storm meets the ground
I wanna live just to have you around
I wanna live to see that everything is true
If I could only have the nearness of you
If I could only have the nearness of you
