"Stop, Start Again"

Place you hand on my chest
Forgetting
The window but not the door
We feel that we might fall

You run your hands through my hair
Forgetting
The window but not the door
We feel we might fall

You're the one
You're the one
The one...
The one who says

"Stop, start
Stop, start again"

My shirt is open
And so is your heart
Forgetting
The window but not the door
We feel we might fall

Place your hand on my chest
Forgetting
The window but not the door
We feel that we might fall
