Here we are, floating around outer space

And we're all looking for the final frontier

My dear, it's right in front of your face

Here we are, why are we so afraid

We're afraid of ourselves and each other

And the humongous mess that we've made

Here we are

Time and again I'm at the end of my rope

And I feel life's a joke that I've been sharing with you

After all we are all what we are about to be

Here we are, here we are

(Repeat last verse 2 times)
