Yeah, I am your one and only, pain in the neck at the  
back of your mind

And I'm that jagged nail who grabs at your sleeve while  
you're trying to get by,

And I love you, truly

And love is an ache that tosses away any hope of  
sleeping.

Love is a screaming sound in your head while you're to  
think of us (?)

I love you, truly

I will try anything to get inside

And I will ruin everything if you let me... so, let me in

If you let me... so, let me in

If you let me... so, let me in

So, let me... so, let me in love

And I will try anything to get inside

And I will ruin everything if you let me... so, let me in

If you let me... so, let me in

If you let me... so, let me in

If you let me... so, let me in my love

My love

My love
