Cancroid cells will penetrate the world wide web  
Infect it with the kiss of death  
They blaze their trail through firewalls  
Waiting for the lethal call

They will do it on the sly  
You're doomed to die

Cyber mortis is a click away  
Minds are not meeting keep the fiend at bay  
Cyber mortis it's not not remote  
They will kill you like a bat out of hell

Lights are fading on these days  
Pride is turning into hate it cuts two ways  
Activate a sleeping cell

The irony of hate is you pay in your downfall  
Spinning at the wheel of fate  
Lurker's ensnare you in your threads  
Awaiting big brother's date

Everywhere at any time  
Life's not worth a dime

Cyber mortis is a click away  
Minds are not meeting keep the fiend at bay  
Cyber mortis it's not remote  
They will kill you like a bat out of hell

Cyber mortis is a click away  
Minds are not meeting keep the fiend at bay
