The blinding rain clouds your eyes  
Don't try to deny me  
On empty promises you ride  
Don't drag your ass around in my fane  
In a bleak mind dreams slowly die  
Dreams will die  
The break was when I crashed the gate

Here I am your private fright  
The phantom of the night  
Here I am my chilly breath  
Has the foully smell of death  
I hide in every face  
Deep in your horror maze  
You straying through the shades of fear  
You're captured in a frozen tear

The birds will sing at all times  
Scoff at your worn soul  
The sun is rising in the sky  
You feign to be dead in your black hole  
You can't lock away a shadow

Here I am your private fright  
The phantom of the night  
Here I am my chilly breath  
Has the foully smell of death  
I hide in every face  
Deep in your horror maze  
You straying through the shades of fear  
You're captured in a frozen tear

Here I am your private fright  
The phantom of the night  
Here I am my chilly breath  
Has the foully smell of death  
I hide in every face  
Deep in your horror maze  
You straying through the shades of fear  
You're captured in a frozen tear
