"Awakening In Sin"

Oppressive coldness, radiance of sin
Net of End... boundless emptiness...
Summoning voice of renunciation
Killing...

Celebration of prepuce
Before a passion of goddess
Mysterious star of devastation and infamy
Net of merging, celebration on the eternal grave
Impurity... act of Chaos
Worship - way of ways

Dark blessing by your lifeless touch
The sacrament by bloody tears of angels sobbings

Congregation of undivine
Kiss of vagina of decaying universe
There is no birth to live
Estrangement into the dead oblivion

Irreversible movement to agonizing silence of the Dark
To revelation 666 in the mouth of vortex
To the fallen temple
