Living human carrion!  
My values amounts to your corpses  
Black rapture rising!  
From the depths of eternal triumph of plague

Day is strangled by deep sunset  
Souls in the dead dreams  
Swarm life worms  
Bodies in the lustful waiting of salvation  
Ashes of reality... ashes of memories

Listen to my preaching!  
Malign postulates - seeds of the dreadful sickness  
Gospel of Omega!  
Destroy all your fears, found the true Horror!

Share my black rapture!  
Featureless sacrifices of world of sorrow  
Taste the curse of fallen ones  
Legion of christened ones by furious hunger of  
Darkness!

In the name of unholy Spirit!  
Symbols of Hell shine in the universal blackness  
Eternity blazes by the flames of truth  
Inexhaustible light of Master!

Black rapture and furious hunger of darkness  
Black rapture and furious hunger of darkness  
Black rapture and furious hunger of darkness

In the name...  
Symbols of Hell...  
Inexhaustible light...  
We are buried in him...
