Endless Mother!  
You listen to the hissing of Serpent  
I accepted your gifts of inmost cold and hatred  
Blood in my veins carries venomous message of Horns  
Mutilated by horror of Abyss... in monolith of Death  
You are in my prayers

Pain! I behold your madness in my wounds  
I feel vibrations of Hell in my convulsions  
My Night is coming...  
Mother - Night

Return through the life, return to Death  
Perfect ritual of destruction  
Experience of black disease  
Fall into bosom of absolute enslavement

Memory decayed  
In circle of black depressive winds  
Prayer is fathomless  
Chalice full of divine presence  
Prayer is Night  
Die with me and...  
Return to Mother-Night
