Machines are treading on our ruins,
By human hands they were built to serve us all
Face the revolution, time to leave our thrones behind
This is the day when the robots walk the earth
[Chorus:]
No flesh, no races in the age of cyber Christ
No blood through the bodies, neon karma is closing in
No room for weak emotions, pain or tears
The mankind spawn, watching us through metal eyes
Welcome my sons
My new Messiah
Staring at the clouds where laser angels fly,
Future looks bright
Gaze into a moon whose circuits light the night,
Gleaming through the rain
We celebrate our end
One mind to rule the nations
Mankind: inferior breed
One doom: annihilation
Mankind: evolution's prey
Let us burn

[Chorus:]

No flesh, no races in the age of cyber Christ

No blood through the bodies, neon karma is closing in

Neon karma is closing in, let your kingdom come
