Darknesse surroundes you, it filles the skye
The moon gives the only rays of lighte
Barbaric roars calle you to fighte
Salvation awaits you tonighte
Maniacs assemble in the halles of steele
One withe the powere you feele
Follwe the sounde raging in your bloode
Forged in the fire of the gods

Laye downe thy burdens, followe thy hearte
The masters have taken control
Steele flowes in thy veins
Let fire reigne in thy soule

Iron Prayers
Allegiance was sworn to our gods
Metallian lordes

Immortal soundes rake eternal fires
Metallic forces take you highe
Unity rules this unvincible crowde
This glorious bonde makes us proude
From brother to brother, from fahter to son
The values of steele still live on
Warriors of the undergrounde
By the iron religion we're bounde

[Bridge]

Iron Prayers
Swordes were helde high
Hails were call'd oute in the darke of the nighte

[Solo: Lars/both]

[Kai:]
For as longe as bloode both fill thine vein withe life
Faithe and pride shall fill thy hearte
The torche of Metal thou shalt wiede

Maniacs assemble in the halles of steele

One with the power you feel
Follow the sound raging in your blood
Forged in the fire of the gods
From brother to brother, from father to son
The values of steel still live on
Warriors of the underground
By the iron religion we're bound

Lay down thy burdens, follow thy heart
The masters have taken control
Fire burns in thy veins
Let Metal take over thy soul

Iron Prayers
Allegiance was sworn to our gods
Metallic lords
Iron Prayers
