Wise men have come to seal our fate  
Salvation they'd bring to free northern land  
Pray to our Lord now, ye all shall be saved  
Or taste the steel drawn by our sanctified hands

Forefather's wisdom, oh Runatyr's rites  
The tales of the hammer, now the witchery's signs  
Elderly feasts, heretical lore  
They fear ancient symbols, the great runes of yore

Hell, damnation  
The saviour's on his way  
Hell and fire  
The holy cross shall burn down to hell

We will never resign to the holy cross  
Never bow down to their Lord  
We'll never defect to the holy cross  
The hammer's our guide  
We'll never kneel down to the cross

Wise men have come to seal our fate  
Salvation they'd bring, we all shall be saved  
Forces of darkness have paved all their ways  
Conversion by violence, now a foreign god we praise

Hell, damnation  
The saviour's on his way  
Hell and fire  
The holy cross shall burn down to hell

We will never resign to the holy cross  
Never bow down to their Lord  
We'll never defect to the holy cross  
The hammer's our guide  
We'll never kneel down to the cross

I am the Lord, thy God  
(Hallowed be thy name)  
Thou shalt have no other gods before me  
(Thy Kingdom come)  
For I, The Lord, thy God am a jealous god  
(Hallowed be thy name)  
And The Lord will not hold him guiltless  
That taketh his name in vain  
(Thy Kingdom come)

I'll show mercy unto them that keep my commandments  
(Thy will be done)  
Art thou willing to praise me?  
(Yes, Master...!)

(Deliver us from evil)  
(Hallowed be thy name)

...for thine is the kingdom, the power and the glory...

Hell, damnation  
The saviour's on his way  
Hell and fire  
The holy cross shall burn down to hell

We will never resign to the holy cross  
Never bow down to their Lord

We'll never defect to the holy cross  
The hammer's our guide  
We'll never kneel down to the cross  
We will never resign to the holy cross  
Never bow down to their Lord  
We'll never defect to the holy cross  
The hammer's our guide  
We'll never kneel down to the cross
