Let's go, see the writing on the wall  
The City is hot tonight, the temperature's high  
I know, there's a place where you can go  
The light's shining bright tonight  
They light up the sky.

Whenever you're down, lost and lonely  
The fever will help you to fight - I know  
Whenever you think you're the only  
The only one to stand the night.

Eye of the Storm, take me away  
Show me a place where to rest and to stay  
Eye of the Storm, your power and your might  
Is able to turn every dark into light

Inside, deep inside your heart you feel  
The rhythm of strong desire, you're hot for the beat.  
Go wild, you know really what you need  
The city is ours tonight, dive into the heat.
