I still believe my eyesight can't be taken
Won't fight
You bleed I bleed
Won't lie
Headcase at best of times
What you need I need, this time?
Feel this way
This is my release

Don't spend your life afraid of change
I'm finally learning potential
Descend
I, I cloud the sky for better times
I work to change
I won't step down and walk away
I'm not too blind to follow truth
I won't rest until this pain sets me free

Don't spend your life afraid of change
I'm finally learning hypocrisy
Failure lost weakness behind
What kills me makes me real
While shelves are filled with wasted dreams
This fight for mine I hold in hand
I won't rest until this pain; this pain sets me free

I won't fight
You bleed I bleed
Won't lie
Headcase at best of times
What you need I need, this time?
Feel this way
Won't fight
Won't let you bring me down
