We both take the hardest punches
And collect black eyes just to prove it
Still we passed by just like strangers
And we speak just like the closest enemies
Enemies

Woah, in the shadows of our life
We can fall into the night unscarred
Woah, in the shadows of our life
We can never let it go this far

Somehow my words rendered useless
Still I pull my lip down to my chest
Just to show you how my jaw is
Tired from waiting to say the things that you should
hear
You should hear

Woah, in the shadows of our life
We can fall into the night unscarred
Woah, in the shadows of our life
We can never let it go this far

After all we're still the same
These empty promises seem to never change
There's a smile on my face and it's 2:55 a.m.
This cramp in my wrist puts me back asleep
Till it all comes around again

With a closed fist
With a closed fist
With a closed fist
With a closed fist

Woah, in the shadows of our life
We can fall into the night unscarred
Woah, in the shadows of our life
We can never let it go this far

Woah, in the shadows of our life
We can fall into the night unscarred
