

Story of the Year "Silent Murder"

Visit "[Silent Murder](#)" on MotoLyrics.com

It's a silent murder
It's a grave that sings your song
It's a quite failure
It's the one that makes you strong

We are heading down a long empty road
We pass lost souls blinded by the cold

Watch the fire burn out
Watch the curtains slowly close
Waiting on the final words
Your heart already knows

We are heading down a long empty road
We pass lost souls blinded by the cold
By the cold

It's a silent murder

It's a grave that sings your song
