WOOOOAHHHH WOOAHHHH!

Thought that cannot make a sound 'till the movement is slowed

(Turn up the radio, turn up the radio)

And words cannot spark a fire 'till the action is closed

(Turn up the radio, turn up the radio)

IT falls, it falls, it falls down (it falls down)

What are you waiting for, what are you waiting for

When the hope for a new sound has been born

What are you waiting for, what are we waiting for

When the hope for a new sound has been born

Now they won't hear a word 'till there's faith in your own

(Turn up the radio, turn up the radio)

So don't give way to the wind but except this promise in stored

(Turn up the radio, turn up the radio)

It falls, it falls, it falls down (It falls down)

What are you waiting for, what are you waiting for

When the hope for a new sound has been born

What are you waiting for, what are we waiting for

When the hope for a new sound has been born

The hope for a new sound has been born

When the time comes

Will you be the one to change it all

When the time comes

Are you the one to change it all

So can you hear it now

(Can you hear it now)

So can you hear it now

(Can you hear it now)

Cause when you answer now to the revolutions call

Then we can change it all

What are you waiting for, what are you waiting for

When the hope for a new sound has been born

What are you waiting for, what are we waiting for

When the hope for a new sound has been born

The hope for a new sound has been born

What are we waiting for, What are we waiting for

What are we waiting for

YEAH
