[Verse 1]

One more beginning for as long as it lasts
A new day for the living all forgiving of the past
A heavy foot steps to the dark unknown
This is a mystery
No security of home

[Chorus]

Here comes the sun
Over my head
Show me a path and i'll be led
Walking alone
I'm not afraid

I have my wings to fly away

[Verse 2]

There's been a fever burning holes in your skin
A million questions
Let the journey begin
Want with a reason and you'll understand
The source is infinite

So, choose your demand

[Chorus]

Here comes the sun
Over my head
Show me a path and i'll be led
Walking alone
I'm not afraid

I have my wings to fly away

[Verse 3]

Send in the messengers
Let the story be told
Set free philosophy with the medicines old
One in a body of a sacred plan
Part of a vision
Believe and you can

[Chorus]

Here comes the sun
Over my head
Show me a path and i'll be led
Walking alone
I'm not afraid

I have my wings to fly away
