If I learned to sing I would in a telephone booth.  
Urine, junk and chewing gum looking down on my  
street.

I'm cracking up I'm happy you noticed.  
I wrote a song for all of us I forgot how it feels.

I am a weird superman.  
I could not fly but on alcohol I can leap tall buildings.  
I'm indestructible yeah you could try but I'm a weird  
superman.  
I have been called.  
I have been called.

I'm giving up I'm going under.  
She said "I really loved your early stuff"  
Wait here for the sequel I'm throwing up.  
I'm happy you noticed.  
Erode a song for all of us.  
I forgot how it feels.

I am a weird superman.  
I could not fly but on alcohol I can leap tall buildings.  
I'm indestructible yeah you could try but I'm a weird  
superman.  
I have been called.

You won't find out.  
You won't find out anyway.  
You won't find out because I've been using my x-ray.  
I see through you.  
You see through me.  
But that's OK (maybe).

I am a weird superman.  
I could not fly but on alcohol I can leap tall buildings.  
I'm indestructible yeah you could try but I'm a weird  
superman.  
I have been called.  
I have been called.
