"Brotherhood"

Visit "[Brotherhood](#)" on MotoLyrics.com

It's too easy for you to criticize me
It's too hard for you to see that I'm right too
For yourself you want to be the scene leader
But our scene doesn't need it, we're all a brotherhood
In our scene everyone is a brother
In our crew everybody feels as one
We hold our hands and we fight together
And what I'm talking about is really our truth
We are here now to build a positive chain that will
protect our family
Our family is made of sincerity, minds and hearts
united
Step by step, you and me
We are all friends
We are all brothers
We don't need no leaders
We are all a big family
