### "Don't Ask Me"

Repeat all the things you said to me  
You know my answer could hurt you  
This is not a game. This is not a joke

Now it's too late to be afraid of me (my reaction)

Don't ask me why!  
Don't ask me what you have to do  
Stay awake again  
You had a chance to change

Regret is a word you'll never hear from me  
This is my time to show what I got to you  
This is not a game. This is not a joke  
Now it's too late to be afraid of me  
If you start a fight, I will start a war
