Don't you remember? [x2]
You need somebody to help you
Because it looks like you're tired (you look like tired)
You lied too much to me (you lied so much to me)
How can I trust you again? (how can I trust you)
Don't you remember, once (one day) I showed you a
positive way? [x2]
Don't you remember, remember! [x5]
Yeah, yeah, yeah
You ask me when, you ask me where. you ask me why
How can I show [x2] it if you don't want to see?
See with your own eyes that you're saying (giving
to/for) your life goodbye [x2]
Look back and think, why are you tired? (you look like
tired)
Can losers like you (can) even think, how can I trust
you?
