"Just Understand"

Visit "[Just Understand](#)" on MotoLyrics.com

I don't want to stay here anymore you see
I want to go to another place
I want to live in a place where there are no rules
I've been trying to understand this fucking world
And I've always had enough words to say "it's not for
me"
I'll change my life 'cause I don't want it anymore
I never needed to follow any leaders, just my mind
(I won't follow any leaders, just my mind)
I won't obey anybody and no fucking rule
I'll build a gun that will break authority
(I have a gun that will break the authority)
So you don't need to know it
Just understand, for the things I fight
I will never give up
