I'm still against the time
And you're against me I don't know if you care about
me now
Stay in front of me I'm not a wall for you but you makes
me feel bad and sad
Eh! Eh yeah! I feel so alone, but I'll never give up

Uoh Oh Oh if you want me away from you,
I'll never be back and even think about you
And if you don't want to think about me
I'll never be back and I want you far away from me

Time is my medicine, day by day, I will learn to survive
With words that brings me down
Sincerity in my eyes and just tears in yours
Cause you don't want I say to you
You oh! I say to you
I feel so alone, but I'll never give up on you
