"Loser"

As you can see, you can't come back
You hurt me and my friends and made us cry
We trusted you all the time, we always thought you
were a friend
Look at your life now, you are completely alone
You have no friends anymore
Because we were everything you had
Because we were everything
You lost everything you had, you didn't care about our
friendship
You know you were wrong all the time
Now it's too late to come back

You showed us who you really are
You made us feel we can be happy now without you
You showed us who you really are
You made us feel, you made us feel we can be happy
now without you
I say, a loser! [4x]
