Walking among the crowd  
(Against the crowd)  
I feel so alone  
Thinking about the things that happened to me  
There were good things and bad things  
But now I don't know why  
Why are bad things disturbing my head?  
I'm living with monsters. day after day  
They want to bring me down  
What did I do to have it?  
Maybe it's because of my sincerity  
Well, I'm not afraid, I'm so only sad  
I never closed my eyes  
I just don't want to cry  
People criticize me for the things I didn't say  
People criticize me for the things I haven't done  
Living with the monsters  
They want to bring me down
