"No Words"

Visit "[No Words](#)" on MotoLyrics.com

I have no words to say to you along this way
Watching your closed eyes for this world
(Watching you closing your eyes for this world)
And saying that mankind it?s a bullshit. Wake up...
Don't try to see the world with other eyes
The pain that everybody feels it?s the same
I waste my time trying to find
Answers for these questions and for what you're afraid
of your own life
I have no words to say to you along this way
Watching you crying all the time and your own life
Burning you down! Wake up...
