"Power Of Hate"

Visit "[Power Of Hate](#)" on MotoLyrics.com

Always when I think of you
I start hating again
I would like your body could get out of world
And your mind so far from here
Imagine your head under my foot
And you asking me, please let me go
You are afraid of truth and what are you doing here
yet?

Get out of here, is the better way for you... get out
Is the power of hate
And don't forget that I know what you want

Open your eyes but close your mouth
And don't forget that I know what you want
You see in me the power of hate
I just can see in you the fear of life
Don't ask me anything because the answer can hurt
your heart

Get out of here, is the better way for you... get out
Is the power of hate... power of hate

Open your eyes but close your mouth
And don't forget that I know what you want
You see in me the power of hate
I just can see in you the fear of life
Don't ask me anything because the answer can hurt
your heart
And don't forget that I know what you want
