The same bullshit it's all you can say
I just can't hear you, please go away
You're in need of attention, this way you'll never find
As time changes you also change your mind
How can we get to the point if you're never the same
It's not funny, there are no rules 'cause this is not a
game
Hey man, prove it to yourself, not for me
I don't care about your attitude, you are free
No, no, it's all inside my head, but you're still looking
for [x2]
Looking for [x3]
You're in need of attention, this way you'll never find
As time changes you also change your mind
How can we get to the point if you're never the same
It's not funny, there are no rules 'cause this is not a
game
Hey man, prove it to yourself, not for me
I don't care about your attitude, you are free
No, it's all inside my head, but you're still looking for
[x2]
Looking for [x4]
Hey man, prove it to yourself, not for me
I don't care about your attitude, you are free
